Notwithstanding any to the contrary in this License Agreement, notifications of IP address changes may be made in electronic format.

Product Terms

COMPACT and Single Title Journal Subscriptions

WHEREAS, therefore, the Licensor, Customer and the Licensees intend to establish a legal and economic framework to allow: (a) eligible authors from Licensees to publish open access articles in the Open Choice journals listed in Schedule 1 (Open Choice Journals), whereby article processing charges would be already considered as a part of the overall fees under these Product Terms; and (b) access to the journals listed in Schedule 3 (Content).

These Product Terms incorporate the following Schedules:

- Schedule 1 Open Choice Journals
- Schedule 2 APC Rates
- Schedule 3 Subscribed Journals

1. Term

The Term shall begin on January 1st 2018 (the “Commencement Date”) and shall end on December 31st 2021.

PART A – OPEN ACCESS PUBLISHING

2. Definitions

2.1. The following terms shall have the following meanings when used within these Product Terms, and shall apply in addition to the definitions included in Section 1 of the General Terms and Conditions:

2.1.1. “**APC Fund**” means the fund from which Eligible Authors can publish Eligible Articles, as specified in the License Fee section of this Agreement;

2.1.2. “**Article Approval Process**” means the Publisher’s standard approval portal for journals (excluding any Non-Standard Journals);

2.1.3. “**Article Processing Charge**” means the Publisher’s article processing charge for publishing an open access article in the applicable journal, as specified in Schedule 2 (APC Rates);

2.1.4. “**Eligible Authors**” means authors who (i) have signed one of the then current open access publishing agreements used at the Licensor to publish an article in one of the Licensor’s Open Choice Journals which current list (subject to change by the Licensor) is attached in Schedule 1 (“**Open Choice Journals**”) under an Open Access License, and who are (ii) “**Affiliated**” with a Licensee, i.e. students enrolled or accredited to Licensee, and the teaching and research staff employed by or otherwise accredited to the Licensee, whereby in case of articles published by multiple authors, only the corresponding author may qualify as an Affiliated Author, and (iii) for which a Licensee has confirmed the status as Affiliated Author.

For the avoidance of doubt, it is the sole responsibility of the Licensee to verify if an author is an Affiliated Author. If the Licensee confirmed the affiliation of an author with respect to an article, this author shall be deemed an Affiliated Author.

2.1.5. “**Eligible Articles**” means articles (i) which are original and not infringe on any law and/or third party right and meet all ethical standards as required in the current guidelines of the Commission for Publication Ethics (COPE) and other policies of the Licensor, (ii) which are written by Eligible Authors, (iii) which are accepted by the Licensor

with an acceptance date during the Term and published in an Open Choice Journal, and (iv) which are in one of the following article types:

- a) Original Paper – Standard article, usually presenting new results; articles published under this article type may also be referred to as Original Research, Original Article, Original Paper or Research Paper.
- b) Review Paper – Standard article, interpreting previously published results.
- c) Brief Communication – Short article submitted for rapid publication that exhibits the same structure as a standard article.
- d) Continuing Education – Article forming integral part of further education (usually medical).

2.1.6. “**Non-Standard Journals**” means the journals which are not published in the Licensor’s standard publications workflow, and/or in which respect the Licensor does not control the publication workflow and/or the terms and conditions under which such journals are published. Non-Standard Journals are marked accordingly in Schedule 1 (Open Choice Journals), but Licensor may change the designation of journals from time to time during the Term.

2.1.7. “**Open Access License**” means a Creative Commons licenses or other open access license, used for the publishing of Eligible Articles in Open Choice Journals. The Licensor currently offers CC BY 4.0 and CC BY-NC 4.0, but these are subject to change at any time by the Licensor.

3. Open Access Publishing

3.1. Publication of Eligible Articles

3.1.1. During the Term, any Article Processing Charge for an Eligible Article submitted by an Eligible Author shall be deducted by the Licensor from the APC Fund. Upon expiry of Term, any remaining APC Fund will not be refunded.

3.1.2. The number of Eligible Articles as set forth in the quarterly reports as per Section 3.1.3 will be determined by the date on which the relevant Article Processing Charge was deducted from the APC Fund. For the avoidance of doubt, the Contracted Market APC’s will be deducted first from the APC Fund.

3.1.3. The Licensor will report to Customer on a quarterly basis how many Eligible Articles have been accepted and approved by Licensee and in which regard the Licensee has verified that the author is an Eligible Author pursuant to these Product Terms.

3.1.4. The Licensor shall notify the Customer when the APC Fund is due to run out. The Licensor shall endeavor to submit such notification 4 weeks before the APC Fund runs out.

3.1.5. In case the APC Fund is not sufficient to cover any more Article Processing Charges, the Licensor will stop accepting Eligible Articles for open access publication pursuant to these Product Terms. Under such circumstances, the Licensor will notify the Customer and the relevant Licensee and either:

- a) Customer or the relevant Licensee may, at its sole discretion, decide to pay the Contracted Market APC for any relevant Eligible Article within 14 calendar days of receipt of the notice. Any remaining portion of the APC Fund can be used as a partial payment for the Article Processing Charge; or
- b) where Customer or Relevant Licensee has not notified the Licensor according to Section 0, and an Eligible Author approaches the Licensor with the desire to publish an article, and pay the contracted Market Article Processing Charge by himself/herself or by a third party, the Licensor reserves the right to publish such article; or

c) if Sections 0 or 0 do not apply, the Eligible Article may be published on a subscription basis.

3.1.6 The Licensor undertakes to use reasonable efforts to use ORCID (<http://orcid.org/>) throughout the workflow from submission to publication and expose Eligible Author's ORCID ID in Eligible Articles and via Abstracting & Indexing (A&I) services, CrossRef and other discovery services. It is the Eligible Author's responsibility to provide all necessary details in respect of its ORCID ID to the Licensor. This Section does not apply to Non-Standard Journals.

3.1.7 Upon expiry of the Term, Parties plan to enter into a new license agreement, also including open access publishing. To prevent a disruption in open access publishing workflow and access to Content, Parties agree that the terms of these Product Terms (excluding Section 4.2) shall remain in effect for a gracing period of 30 calendar days upon expiry of the Term. If in this gracing period, Customer and Licensor cannot agree on a new license agreement, the Market APC price will be charged to Customer for the Eligible Articles accepted and approved in this period.

3.2 Editorial Independence

3.2.1 Nothing herein contained shall oblige the Licensor or any third party to accept or publish any article submitted to the Licensor by an Eligible Author. Customer and the Licensees acknowledge that the selection of material to be accepted and published by the Licensor or a third party in control of the publishing process is entirely at the discretion of the Licensor or said third party. Customer and the Licensees waive any claim they may have against the Licensor or said third party in the event that the Licensor or said third party refuses or declines to publish any material (or part thereof) submitted by an Eligible Author.

3.2.2 Process for identification of Affiliated Authors:

a) It is the Licensee's responsibility to provide the parameters for identification of Affiliated Authors in and shall update the Licensor of any changes in those parameters as soon as reasonably practicable.

b) Affiliated Authors shall identify themselves as follows:

c) With respect to publication in any Open Choice Journal (which is not a Non-Standard Journal) by providing either their institution name or using their e-mail domain or by IP address recognition within the identification process.

d) For the avoidance of doubt, Eligible Authors shall not be offered the option to publish their Eligible Article under another license than the Open Access License.

e) Each Non-Standard Journal may have a different process for identification of Affiliated Authors.

3.2.3 The Licensor shall notify the Licensee by email each time an author is identified as an Affiliated Author.

3.2.4 The Licensee shall confirm or deny if the author is affiliated with the respective Licensee. In case the Licensor does not receive either a confirmation or a denial within 3 business days after the Licensor has notified the Licensee, the Licensor shall deem the author to be affiliated and continue the publishing process. Licensor shall explicitly inform Licensee in its notification email of the intended consequences if the aforementioned time period expires without any declaration by Licensee. If the Licensee requires more than 3 business days for confirming or denying if an author is Affiliated, the Licensee may request an extension of up to 4 additional business days from the Licensor by email, and the second sentence of this Section 0 shall not apply.

3.2.5 The parties may mutually agree in writing to a different, more automated mechanism to verify identification criteria for Eligible Authors.

3.2.6 From time to time, the Licensor shall be entitled to revise the identification and verification process described above in order to improve the process for Eligible Authors. The Licensor shall notify the Customer in writing of any such changes to the process.

PART B – ACCESS TO CONTENT

4 Access to Content

4.1 Access Rights

4.1.1 Continuing Access Journals: During the Term, Licensee shall have access to the Continuing Access Journals listed in Section 1 of Schedule 3 (Content) first published during the Term. After the Term, Licensee shall have Continuing Access to the Continuing Access Journals first published during the Term, subject to all the terms and conditions of this License Agreement.

4.1.1 Access Only Journals: N/A

4.1.2 Backfile Access During the Term: In addition, during the Term only, Licensee will be granted access to the Content of titles listed in Sections 1 and 2 of Schedule 3 (Content) published beginning 1997 (or, if later, first date of publication).

4.2 Cessation of Publication / Transfer / Take-Over

4.2.1 If 3% or more of the Continuing Access Journals cease to be published by Licensor during the Term, upon Licensee's written request, Licensor will, at Licensor's sole option, offer to Licensee (1) access to additional Content not presently licensed to Licensee, with an approximate value equal to or greater than the value of the discontinued Continuing Access Journal, or (2) a credit toward any future acquisition of a Product in the amount of the value of the discontinued Continuing Access Journal. The value of any discontinued Continuing Access Journal will be determined by Licensor in good faith, taking into account factors which may include, without limitation, number of articles, number of pages, impact factor, usage factor, list price, or any other formula including any or all such factors.

4.2.2 If Licensor's publishing rights to a Continuing Access Journal are transferred to another publisher, Licensor will use commercially reasonable efforts to provide Licensee with access to the Content of the Continuing Access Journal licensed under these Product Terms either (a) online on the Platform, (b) online on the new publisher's website, or (c) offline by providing the same on a digital storage medium. In case of (c) above, use of the Continuing Access Journal shall be subject to the terms of this License Agreement, except for Sections 4.3 and 4.4 of the General Terms and Conditions. If Licensor is unable to do any of the foregoing, Section 4.2.1. above shall govern. Licensor agrees to abide by the principles of Project Transfer.

5. Text and Data Mining

Definitions

"Text and Data Mining" means to perform extensive automated searches of subscribed Content, including data embodied therein (such as images, figures, interactive content and videos), the sorting, parsing, addition or removal of linguistic structures, and the selection and inclusion of subscribed Content into an index or database for purposes of classification or recognition of relations and associations."

"TDM Output" means the result of any Text and Data Mining activity or operation, capable of fixation, reproduction and/or communication in any form, including without limitation the creation of an index, reference, abstract, relative or absolute description or representation of subscribed Content, an algorithm, formula, metrics, method, standard or taxonomy describing or based on subscribed Content, a relational expression or measurement, whether scalable or not, of subscribed Content, extraction, alternative representation or translation, expression or discussion of any extracts from mined subscribed

Content, whether in the form of a direct extraction or a representation in any form which is based on subscribed Content.

5.1 Licensed uses: TDM

The Institute and its Authorized Users may use all of the subscribed Content under this License Agreement, at no additional cost, in the course and for the purpose of non-commercial research: (a) for Text and Data Mining (TDM) by carrying out the following activities: download, extract and index information from the subscribed Content to which the Institute has access under this License Agreement. Where required, mount, load and integrate the results on an internally facing server used for the Institute's text-mining system to evaluate and interpret the TDM Output for access and use by Authorized Users.

(b) store electronic copies of the subscribed Content as necessary solely to ensure efficient use by Authorized Users in connection with their work on a TDM project and only during the lifetime of any TDM project. Such copies of subscribed Content are not to be redistributed for any purpose or to be used for marketing of the Institute or the Authorized User's research capabilities. This also includes any commercial research capabilities.

(c) use TDM Output as part of original non-commercial research carried out by Authorized Users and describe or otherwise reproduce extracts and quotations from TDM Output as part of original works of authorship, e.g. research reports, research papers and research articles. Where subscribed Content is embodied, quoted or referred to, or where bibliographic metadata of subscribed Content is displayed, it should be accompanied by a DOI link that points back to the individual full text item of subscribed Content.

(d) make the results of any TDM Output available on an externally facing server or website as long as this inclusion consists only of a few lines of query-dependent text of individual full text items of subscribed Content (e.g. extracts from articles or book chapters) which shall be in any event shorter than 200 characters or 15 words or 1 complete sentence or limited to bibliographic metadata. In no event shall the TDM Output contain links to access substantial parts of a full-text work or database of subscribed Content beyond the above limitation;

(e) Subject to sub-clause 1(d) above and clause 2 below, the Institute may for non-commercial purposes communicate the TDM Output whether for internal or external use without creating products that substitute for subscribed Content, provided that the Institute may not make the results or the TDM Output in the form of data sets available to third parties for their use.

5.2 Prohibited uses relating to subscribed Content and TDM Output

(a) Subject to clause 1 above and unless agreed by separate written agreement, the Institute and its Authorized Users may not engage in activities listed under (b.1 to b.7).

(b.1) create derivative products or services that would compete with or be substitutable for the Licensor's products and services;

(b.2) extract, develop or use subscribed Content in any commercial activity;

(b.3) abridge, modify, translate subscribed content, or create any derivative work based on the subscribed Content, except to the extent necessary to make them perceptible on a computer screen to Authorized Users;

(b.4) allow a third party to harvest any TDM Output, including but not limited to transfer the TDM Output to an internal server;

(b.5) remove, obscure or modify in any way any copyright notices, other notices or disclaimers as they appear in the subscribed Content;

(b.6) In the case of TDM at Licensor's site: use any robots, spiders, crawlers or other automated downloading programs, algorithms or devices to continuously and automatically search, scrape, extract, deep link, index or disrupt the working of the subscribed Content;

(b.7) systematically reproduce, retain or redistribute the subscribed Content.

(c) This clause 2, as well as the restrictions in sub-clause 1(c) to 1(e) shall remain effective and survive termination of this License Agreement, howsoever arising.

5.3. Security, Grant of Access Rights, Formats and Delivery Mechanisms

Licensor and the Institute agree the following access protocols:

(a) The Institute shall ensure compliance with Licensor's Usage policies and/or Licensor's instructions, including security and technical access requirements. TDM may be undertaken on either locally loaded subscribed Content or as mutually agreed.

(b) Institute shall implement and maintain adequate and effective state of the art data security systems and measures, in line with international industry standards and best practice.

(c) In the event the Institute collects or otherwise processes or uses personal data, Institute shall expressly obtain consent from the end user or any person that is a beneficiary of applicable data protection laws. Such collection, processing or use shall be limited to the scope of the consent given. Institute shall undertake the appropriate technical and security measures to protect any personal data Institute collects.

(d) Licensor may require the Licensee and Authorized Users to adhere to Licensor's policies and/or instructions referred to in clause 3(a) above in carrying out any TDM activities, including, without limitation, in scheduling and staggering them over time.

(e) Licensor does not give any warranty or assurance as to the suitability or availability of Licensor's electronic servers and systems for carrying out TDM or extracting TDM Output, nor as to the completeness or accuracy of any downloaded materials.

5.4 Breach and Termination

(a) Breach: In addition to any contractual rights and remedies under the applicable law, Licensor shall retain the right to deny access to any Content where the Institute is in breach of any of the conditions of this License Agreement relating to TDM. Where Institute has made available any subscribed Content or has made any resulting TDM Output available to third parties, Licensor shall be entitled to terminate rights granted under clause 1 hereof and also to charge the Institute any subscription fee that would have been payable to Licensor, had the use in question been agreed.

(b) Termination: Removal of locally-loaded copies of subscribed Content: Upon termination of any TDM grant of rights under clause 4(a) above or upon termination of the entire 14

License Agreement, howsoever arising, the Institute shall procure the destruction of any copies of the subscribed Content if locally loaded for purposes of TDM. No later than 30 days after termination, the Institute shall provide a certificate of destruction signed by an authorized officer of the Institute.”

Schedule 1.

Open Choice Journals

Springer Journals (Publishing fee titles)

The following Open Choice Journals are eligible for Eligible Authors to publish in. Licensor will send Customer an updated list of Open Choice Journals on a quarterly basis. This list is subject to change by Licensor. If a journal converts from a fully-Open Access journal to a hybrid journal, it will be included in the updated list in the quarter following the conversion, provided it falls within one of the categories specified below
