MORE POSSIBILITIES

- ### REQUEST PDF VIA LIBRARY

  This might not be free, but it's a fast option, and often much cheaper than buying it from the publisher.
  https://www.kb.nl/bronnen-zoekwijzers/zoekwijzers/wetenschappelijke-literatuur-voor-iedereen/universiteitsbibliotheken-in-nederland

- ### REQUEST COPY VIA AUTHOR

  Request a copy from the author directly: often not the fastest way, but traditionally a well-used route to get pdf's. You can try ReseachGate or Academia. Some institutional repositories of academic libraries have this feature too.

- ### BUY FROM PUBLISHER

  You can of course BUY it from the publisher or journal itself anyway...

- ### HASHTAG #ICANHAZPDF

  Use the hashtag #icanhazpdf together with a link to the requested publication; if somebody has access, they can send you the PDF.
- ### SCI-HUB

  If all else fails, you may be tempted to use Sci-Hub. Do realize, however, that in many countries, including The Netherlands, the use of Sci-Hub is considered as an illegal act, as it involves content protected by copyright laws and licensing contracts.

Composed by UKB, as a general guideline to help individual researchers in getting access to the PDF of an article, in case access via their own institute is difficult.
