SCHEDULE 3

Pricing

Institutions are to receive unlimited online access, over a three-year period, to the Cambridge University Press Journals Annual Full Package. For 2017, there are 385 journal titles in the Full Package, valued at £113,795 (the online-only subscription value).

Members will receive access to our 2017 Full Collection and future annual collections through 2019 and benefit from unlimited OA publishing of accepted submissions in both our hybrid and wholly open access journals. The consortium price for this option is **£381,439** for 2017.

- ❖ Participating institutions who have already renewed their 2017 subscriptions will be refunded as the value of these subscriptions have been taken into account in the 2017 pricing in this licence.

Subsequent year pricing, years 2018 & 2019:

- 2018 Consortium Price **£411,954** – In the second year of the license, UKB members will be able to access our 2018 Full Collection and will continue to be able to publish in our hybrid and wholly open access titles without limitation within the 2018 Full Collection.
- 2019 Consortium Price **£444,910** – In 2019, UKB members will have access to the 2019 collection and will continue to be able to publish in our hybrid and wholly open access titles without limitation within the 2019 Full Collection.

The increases for 2018 & 2019 represent 8% per annum. This increase is calculated as follows:

3% annual consortium increase + 5% new content for updated collections (2018 & 2019)

- ❖ We reserve the right to renegotiate the terms and pricing of this offer should our journal portfolio change due to unforeseen major acquisitions or if our Open Access Publishing increases exponentially.

New Institutions

Non-licensed universities may join the contract at any time during the course of the licence period. Additional fees per institution will be added to the total consortium fees.

Pricing for University Colleges and Research Institutions:

Access to the 2017 Full Collection or later collections are offered to university colleges and research institutes for a nominal flat fee of £2,500 per institute. The institution may cancel any individual subscriptions before the licence commences.

Unlimited Open Access publishing is not extended to these institutions.

Open Access Publishing:

The unlimited Open Access Publishing offered is only valid if at least 8 institutions license the 2017 Full Collection. Dutch (coordinating) authors affiliated with a licensed UKB member will be able to publish within both our 270 hybrid journals and 18 wholly open access journals without limitation.

General (applicable to all Subscription Products licensed through this Agreement):

During the term of this Agreement the Institutions shall be granted a discount of 50% off

the GBP institutional print subscription price for any new or renewed print subscriptions to the Licensor's journals which have electronic equivalents.

DELETIONS OF JOURNALS

If Cambridge University Press ceases to publish a journal then this journal will no longer be available in the packages on offer. The availability of titles in Cambridge Journals Online Collections will be reviewed annually. Cambridge will notify **SURFmarket** of any titles leaving the list of available titles by 1 October in order to make applicable adjustments to the fees the following calendar year.

Should the value of the collection decrease by more than 10% year on year, then adjustments will be made to the Total Fees. By contrast, should the value of the collection increase by more than 10% year on year, we reserve the right to adjust the Total Fees. Cambridge University Press will communicate any such adjustments in advance.

SCHEDULE 6

Open Access

Terms and Conditions for Open Access Publishing for Authors

1. Eligible authors

Eligible Authors are defined as teaching and research staff employed by or otherwise accredited to one of the Institutions as well as students enrolled or accredited to one of the licenced Institutions.

In case of articles published by multiple authors, the corresponding author will be the Eligible author. Corresponding author shall be the author who signs the publishing agreement.

Authors are only eligible once they have signed the then current open access publishing agreement with Publisher. Currently this agreement refers to any of the below Creative Commons licences:

- Creative Commons Attribution License (CC-BY)
- Creative Commons Non-Commercial License (CC-BY-NC)
- Creative Commons Non-Commercial No-Derivatives License (CC-BY-NC-ND)
- Creative Commons Non-Commercial Share-alike (CC-BY-NC-SA)

2. Eligible Article Types

This agreement provides for unlimited publishing of research and review articles by Corresponding Authors within our hybrid and fully-OA journals.

3. The parties' obligations

a) The parties have the following obligations regarding the Open Access Publishing:

- Publisher shall not levy article processing charges directly on Authors who have identified themselves and whose eligibility has been verified;
- Publisher shall list and include the Institutions in the publishing process in order to assist Authors in identifying themselves at the time of submission;
- Authors will be deemed Affiliated Authors if the email address they provide to the Publisher is part of the list of domain names of the Institutions provided in Appendix
- Informational text in RightsLink (or whichever system the Publisher may utilize in future) will be displayed for authors linking to the Publisher's website for further details on the possibilities to publish in Open Access for free.
- Information regarding the agreed licence in regard to publishing in Open Access will be posted on the Cambridge Core website.
- Authors are given a choice in publishing routes at the time of submission. However, the Publisher's website will clearly be referenced to enable Authors to view the Open Access policies and allowances within this agreement.
- Institution shall ensure that Authors shall identify themselves as being both eligible and corresponding in the course of the Publisher work-flow. In case authors have not identified themselves as being eligible and corresponding, once an article has been published in a subscription Journal, the author is not eligible anymore to publish the article as Open Access;

- The parties might change this identifying process and amend this Agreement accordingly, when the changes and amendments are agreed by both parties.
- If the Agreement between Parties becomes available after the starting date, Parties will agree on publishing articles in Open Access for three years starting from 1 June 2017.
- Publisher will where appropriate provide an automated article upload service to PubMed Central.

b) Publisher will deliver a monthly report per institute of the articles that have been published in Open Access in hybrid journals or fully OA journals in each month. The report gives an overview of the corresponding author(s), the affiliation of the corresponding author(s), the article title and journal volume, per institute. The report will be delivered within 4 weeks after the end of each month.

c) Publisher will deliver a full report of all articles (open access and otherwise) published by the Institutions over the period 1 January until 30 June and 1 July until 31 December. The report gives an overview of the Institutions, the corresponding author(s), the affiliation of the corresponding author(s), the article titles, journal volumes and open access Y/N. The report is delivered within 4 weeks after the end of the 6 month periods. The report will be sent to SURFmarket, or an appointed contact person of the Institutions.

d) Publisher is working to support the NISO Access and License Indicators Metadata, which we see as a useful standard. Currently, we record in JATS XML that the article is Open Access and which Creative Commons license is applied to the article.

SCHEDULE 7

Long term preservation

Publisher will archive the Licensed Material in CLOCKSS and/or Portico.

SCHEDULE 8

1. Authorised Users may download, extract, store and index the Products for the purposes of TDM for non-commercial research purposes only and may mount, load, integrate and analyse the results of TDM on their personal devices or Secure Network subject to the inclusion of a link to the underlying Product on the Server. 2 LICENCE

2.1 Subject to payment of the Purchase Fees and, if applicable, the Annual Access Fee, Licensor grants Licensee a non-exclusive and non-transferable right to use and access the Purchased Products in accordance with the terms of this Agreement. Where Licensor is no longer able to provide Online Access on a permanent basis, it shall provide a copy of the Purchased Products in pdf format (or such other electronic format as Licensor in its sole discretion determines) and Licensee agrees and acknowledges that the use of any such electronic copy shall always be subject to the terms of this Agreement.

2.2 Subject to the payment of the Subscription Fees, Licensor grants Licensee a non-exclusive and non-transferable right to use and access the Subscription Products in accordance with the terms of this Agreement.

2.3 Subject to clause 2.4, any journal volume to which Licensee has paid to have Online Access for the Subscription Period shall continue to be accessible to Licensee via Online Access after that Subscription Period has expired, provided that this Agreement is not terminated by the Licensor under clause 10.2. This continuing access shall not apply to any content provided free of charge as an additional benefit to online subscribers. Licensee must pay an Annual Access Fee for continuing Online Access. The terms of this Agreement shall continue to apply to any journal volume to which access is granted after its Subscription Period has expired.

2.4 Where Licensor is no longer able to provide Online Access to the Subscription Products on a permanent basis, it shall provide a copy of the applicable Subscription Products in pdf format (or such other electronic format as Licensor in its sole discretion determines). Licensee accepts and acknowledges that, whilst Licensor cannot guarantee continued access, in the event a journal volume is transferred to another publisher, Licensor shall use commercially reasonable endeavours to negotiate such continued access rights with the new publisher.

3 PERMITTED USES

General

3.1 Subject to the restrictions in clause 4.1, and solely for the purposes of research, teaching at Licensee's premises and private study Licensee may allow the Authorised Users to:

3.1.1 access, view, download, store and print the Products; and

3.1.2 Incorporate a limited number of Sections of each Product in Course Packs and/or Electronic Reserves provided that: (i) more than 10% of the Product is not incorporated in a Course Pack or Electronic Reserve; and (ii) each Section shall expressly and with reasonable prominence acknowledge the source (including author, title, publisher), incorporate the link for electronic access to the Product and Licensor's copyright notice. Such copies shall be deleted/destroyed when they are no longer to be used for teaching purposes.

3.2 Nothing in this Agreement shall in any way exclude, modify or affect any of Licensee's statutory rights under applicable copyright law.

Text and data mining

3.3 Authorised Users may download, extract, store and index the Products for the purposes of TDM for non-commercial research purposes only and may mount, load, integrate and analyse the results of TDM on their personal devices or Secure Network subject to the inclusion of a link to the underlying Product on the Server. Any copies of the Products stored locally by an Authorised User for the purposes of TDM shall be deleted once such research project ends.

3.4 Authorised Users may use the results of their TDM in their research and make the results of their TDM available on externally facing websites provided no Product, or part of a Product, is made available other than as expressly permitted by applicable law.

3.5 Authorised Users shall not use the results of TDM in any activity, with any third parties or in any way that would compete with any Licensor's products or services. To request a commercial licence to conduct TDM please contact the Rights and Permissions Department at rights@cambridge.org.

4 RESTRICTIONS

4.1 Except in the course of exercising rights specifically granted in this Agreement or permitted under any applicable Creative Commons licence, neither Licensee nor any Authorised User may:

4.1.1 remove or alter Licensor's copyright notice or other means of identification or disclaimers as they appear on a Product;

4.1.2 systematically make printed or electronic copies of any of the Products;

4.1.3 permit access to the Products to anyone who is not an Authorised User;

4.1.4 display or distribute any part of a Product on any electronic network, (including without limitation the internet and the world wide web) other than the Secure Network;

4.1.5 use all or any part of a Product for Commercial Use;

4.1.6 modify, adapt or alter a Product or make available a Product in any other form or medium or create derivative works from a Product without the prior written permission of Licensor;

4.1.7 create a database in electronic or structured manual form by downloading and storing any content from the Products;

4.1.8 attempt to interfere with the proper workings of any online provision of the Products including attempting to circumvent security, tamper with, hack into or otherwise disrupt or compromise the functionality or availability of the Server or other internet-connected device used as part of Licensor's IT system which enables access to the Products;

4.1.9 either individually or collectively download Product content at rate which exceeds 500 pdfs per hour;

4.1.10 use any automated retrieval devices (such as web robots, wanderers, crawlers, spiders or similar devices) save that this is not intended to prevent Licensee from using a federated search engine or discoverability service as part of its library information services; nor

4.1.11 otherwise download, store, reproduce, transmit, display, print, copy, distribute, extract, exploit or use the Products.

4.2 The Licensee may supply to the library of an institution (whether by post, fax or secure transmission using Ariel or its equivalent, whereby the electronic file is deleted immediately after printing) a single paper copy of a Section of a Product in accordance with the limitations set out in clause 2.4.2 and provided that such copy may only be used for research, teaching and private study purposes and not for any Commercial Use.

4.3 Licensor reserves the right to withdraw access to the Products in the event of a download rate in excess of the limit in clause 4.1.9. The withdrawal of access in such circumstances is generated by an automatic abuse detection process. Upon activation of the process, e-mails including details of the actual download rate detected will be sent to Licensor's administrator, following which Licensor may contact Licensee's administrator to request an investigation. Licensor shall only restore access once the issue has been resolved to its satisfaction.

5 LICENSEE'S RESPONSIBILITIES

5.1 Licensee shall provide Licensor on request with all identifying information, including IP address ranges, relating to Licensee and its Secure Network necessary to enable Licensor to set up and activate Online Access. Online Access is conditional upon Licensee supplying this information to Licensor, and to Licensee promptly notifying Licensor of any changes to this information.

5.2 Licensee warrants and represents that the range of IP addresses provided further to clause 5.1 are only assigned to devices within its Secure Network.

5.3 Licensee shall:

5.3.1 ensure Online Access is only granted to Authorised Users via the Secure Network and that access granted to such users ceases on them ceasing to be an Authorised User;

5.3.2 take all reasonable measures to monitor the use of the Products and shall make Authorised Users aware of the Terms of Use;

5.3.3 ensure that all Authorised Users treat all logins, passwords or other Authorised User identification required for Online Access as confidential and do not disclose them to any other person;

5.3.4 ensure that all Authorised Users only use the Products in compliance with the terms of this Agreement; and

5.3.5 promptly notify Licensor on becoming aware of any unauthorised possession or use

	or other breach of this Agreement and take appropriate action (including disciplinary action) to ensure that such activity ceases and to prevent any recurrence.		
5.4	Licensee is responsible for obtaining at its own cost all internet connections, equipment and software necessary to access the Products via the Secure Network. Furthermore, whilst Licensor will use commercially reasonable endeavours to guard against viruses, it does not guarantee or warrant that any Products or Online Access will be free from infections, viruses and/or other code that has contaminating or destructive properties and Licensee is responsible for implementing sufficient procedures and virus checks to satisfy its requirements for the security of data input and output.	9.3.2	delay the activation of or suspend access to the Products previously granted until full payment is made of any Fees, and Licensee agrees that the Subscription Period shall not be extended by any period of delay or suspension resulting from late payment.
		10	TERM AND TERMINATION
6	LICENSOR'S RESPONSIBILITIES	10.1	The Subscription Period may be renewed by mutual consent for additional periods upon payment of the agreed Subscription Fees.
6.1	Following activation of Licensee's account Licensor shall, subject to payment of the Fees, use commercially reasonable endeavours to:	10.2	Either party may terminate this Agreement (and Licensor may terminate this Agreement in part) immediately by serving written notice on the other in the event that the other party commits a material breach of this Agreement, and in the case of a breach capable of remedy, fails to remedy the same within 30 days of a written request to do so. Licensee or an Authorised User's breach of clause 4 or clause 5 shall be deemed a material breach.
6.1.1	provide Licensee with Online Access; and	10.3	Upon termination of this Agreement by the Licensor under clause 10.2:
6.1.2	ensure that the Server has sufficient capacity and rate of connectivity to provide Licensee with a level of service which is commensurate with the current standards in the online information industry sector.	10.3.1	Licensee's and Authorised Users' rights to access and use the Products shall immediately terminate and Online Access shall cease;
6.2	Licensor may temporarily suspend Licensee's Online Access for the purposes of maintenance or upgrades but shall use its commercially reasonable endeavours to notify Licensee of such activities and to minimise the period of suspension or interruption.	10.3.2	Licensee shall immediately cease using any passwords or other Authorised User identification to access the Products;
6.3	In relation to any Product made available via Online Access, Licensor reserves the right at any time on notice to Licensee to:	10.3.3	Licensee shall ensure that all Authorised Users shall do likewise; and
6.3.1	make changes or corrections and to alter, update or upgrade any aspect of the Product;	10.3.4	Licensor shall not be required to refund any Fees. Any copies of Product information and/or content shall be deleted from Licensee's records and storage media.
6.3.2	vary the technical specification of the Product or of any software included therein; and	10.4	On termination of this Agreement by the Licensee under clause 10.2, Online Access to the Products shall continue for the applicable Subscription Period or on a perpetual access basis, as appropriate, unless Licensor is unable to provide such access, in which case the relevant provisions in clause 2.1 shall apply.
6.3.3	withdraw the Product (or any part of a Product) where it has decided to cease publication of that Product.	11	DATA PROTECTION
6.4	Where Licensor withdraws a Product or a part of a Product in accordance with clause 6.3.3, if Licensee purchased the withdrawn Product on a perpetual access basis, a copy of the withdrawn Product shall be provided to Licensee in pdf format (or such other electronic format as Licensor in its sole discretion determines), otherwise Licensor may in its sole discretion either offer broadly equivalent replacement materials or a credit in respect of the unexpired portion of the Subscription Fees or Annual Access Fee in relation to the withdrawn Product (or part of a Product). The provision of a pdf copy, replacement or credit (as applicable) shall discharge Licensor's liabilities to Licensee in respect of the withdrawn Product (or part of a Product).	11.1	Unless otherwise defined, terms in this clause 11 shall have the meanings defined in the Data Protection Act 1998 (as amended from time to time). Licensee acknowledges that Licensor may use any Personal Data provided by Licensee for the purposes of the fulfilment of this Agreement and as may be further detailed in Licensor's privacy policy, http://www.cambridge.org/policy/privacy , which may be revised from time to time (Purpose). Licensee's Personal Data may be transferred to Licensor's or its agent's or subcontractor's offices, which may be located outside of the European Economic Area. By entering into this Agreement, Licensee agrees to the processing and disclosure of its Personal Data for the Purpose.
6.5	For such period as Licensee is entitled to Online Access, Licensor agrees to provide Licensee with access to usage data and, where available, usage reports detailing the level of use of any Subscription Products by Licensee's Authorised Users per month. Any reports made available shall be COUNTER compliant (or compliant with an equivalent industry standard), and such reports and data will not identify individual Authorised User usage, but will be provided in respect of the IP address ranges given by Licensee further to clause 5.1. Licensor will not be able to provide accurate usage data and/or reports if Licensee stores any of the Subscription Products on any cache or proxy server, which is discouraged in any event due to the dynamic nature of the Subscription Products.	12	ANTI-BRIBERY AND CORRUPTION
7	INTELLECTUAL PROPERTY RIGHTS	12.1	Licensee understands that Licensor acts in accordance with the UK Bribery Act 2010 and other applicable anti-bribery laws in the jurisdictions in which it operates. The Licensee (and its related officers and employees) warrants that it shall not engage in any activity, practice or conduct in relation to its performance under this Agreement which would constitute an offence under any applicable law or regulation relating to anti-bribery and corruption. The Licensee agrees to promptly notify Licensor of any suspected or known breach of this clause 12.
7.1	Products, usage data and usage reports are protected by international copyright laws, database rights and other intellectual property rights. Licensor, its affiliates and licensors are the owners of these rights, and this Agreement does not transfer any right, title or interest in the Products to Licensee.	13	CONFIDENTIALITY
7.2	Licensor warrants that use of the Products in accordance with these terms does not infringe the intellectual property rights of any third party.	13.1	Licensee understands that, in the course of performing its responsibilities under this Agreement, Licensor shall from time to time disclose to Licensee information that is proprietary and/or confidential to Licensor, including but not limited to the terms of this Agreement, market research information and pricing. Licensee agrees to maintain the confidentiality of all information it receives from Licensor that is not readily available from a public source and not to disclose such information in a way that could be prejudicial to Licensor, except as may be required by law, a court of competent jurisdiction or any governmental or regulatory authority. This clause 13 shall survive the termination of this Agreement.
8	LIMITATION OF LIABILITY	14	GENERAL
8.1	Whilst Licensor shall use commercially reasonable endeavours to provide Online Access, it cannot guarantee that Online Access will operate continually or without interruption, and neither does Licensor guarantee the accuracy of any information and/or content contained in the Products, which are provided on a strictly 'as is' basis. Licensor has no liability for any loss or damage whatsoever sustained by Licensee or any Authorised User as a result of the availability or use of or reliance on the content in the Products.	14.1	Licensee may not assign, transfer or sub-license its rights or obligations under this Agreement.
8.2	Save as expressly provided otherwise in this Agreement, Licensor, to the fullest extent permitted by law, excludes all express or implied terms, conditions, warranties and/or representations with regard to the Products including, without limitation, any warranties relating to quality or fitness for purpose.	14.2	In no circumstances shall Licensor be liable to Licensee or any Authorised User for any delay or failure to perform its obligations due to an event beyond its reasonable control, including but not limited to loss or failure of third party controlled IT equipment and internet connections.
8.3	Licensor shall not be liable for any indirect or consequential loss or damage or for any loss of or corruption of data, loss of programs, profit, anticipated savings, revenue or goodwill (whether direct or indirect) arising out of or in connection with the access, availability, use of or reliance on the Products.	14.3	This Agreement constitutes the entire agreement between the parties and supersedes any previous agreement between the parties relating to its subject-matter. Each party acknowledges and agrees that, in entering into this Agreement, it does not rely on, and shall have no remedy in respect of, any statement, representation, warranty or understanding (whether negligently or innocently made) other than as expressly set out in this Agreement.
8.4	Licensee agrees that the entire liability of Licensor to Licensee and any Authorised User for any claim (whether in contract, tort, misrepresentation, breach of statutory duty or otherwise) arising out of or in connection with the access, availability, use of, or reliance on a Product shall be limited to the Fees paid for that Product in the year in which the liability arose in relation to that Product.	14.4	This Agreement may not be amended, varied or supplemented except in writing signed by duly authorised representatives of both parties.
8.5	Nothing in this Agreement shall limit or exclude Licensor's liability for death or personal injury resulting from Licensor's negligence or its fraudulent misrepresentation or any other liability which cannot be limited or excluded under applicable law.	14.5	If any provision of this Agreement (or any part of any provision) is found by a court to be unenforceable that provision or part provision shall, to the extent required, be deemed not to form part of this Agreement and the validity and enforceability of the other provisions of this Agreement shall not be affected.
9	FEES	14.6	No provision of this Agreement is intended to be enforceable by a person who is not a party to this Agreement.
9.1	The Fees are net of all applicable taxes, including without limitation VAT or other applicable sales taxes, which shall be charged in accordance with the relevant regulations in force at the time of making the taxable supply, and such amounts shall be payable by Licensee in addition to the Fees on receipt of a valid tax invoice.	14.7	Any notice given to a party under or in connection with this Agreement shall be in writing and shall be delivered by hand or by pre-paid first-class post or other next business day delivery service at its registered office (if a company) or its principal place of business (in any other case) or sent by e-mail, if to Cambridge at generalcounsel@cambridge.org , and if to the Licensee, at the e-mail address on the Contract Form. Any notice shall be deemed to have been duly received: if delivered by hand, on signature of a delivery receipt or at the time the notice is left at the proper address; if sent by pre-paid first-class post or other next business day delivery service, at 9.00am on the second business day after posting or at the time recorded by the delivery service; if sent by e-mail, at 9.00am on the next business day after transmission. This clause does not apply to the service of any proceedings or other documents in any legal action or, where applicable, any arbitration or other method of dispute resolution.
9.2	Licensee shall pay the Fees in full without deduction or withholding in respect of any tax unless required by law. If any such deduction or withholding is required, Licensee shall, when making the payment to which the withholding or deduction relates, pay to Licensor such additional amount as will ensure that Licensor receives the same total amount that it would have received if no such withholding or deduction had been required.	14.8	The rights of the parties arising under this Agreement shall not be waived except in writing. Any waiver of any of a party's rights under this Agreement or of any breach of this Agreement by the other party shall not be construed as a waiver of any other rights or of any other further breach.
9.3	Licensee shall pay the Fees within 30 days of the date of invoice unless different payment provisions are set out in the invoice. Without prejudice to any other right or remedy that Licensor may have, where Licensee fails to pay the Fees and any VAT or other applicable sales tax on the due date, Licensor shall be entitled to:	14.9	Headings used in this Agreement are for convenience only and are deemed not to be

- 14.10 This Agreement is drafted in the English language. If this Agreement is translated into any other language in the event of conflict the English language version shall prevail.
- 14.11 This Agreement and any dispute or claim arising out of or in connection with it or its subject matter or formation (including non-contractual disputes or claims) is subject to English Law. The parties submit to the non-exclusive jurisdiction of the English courts to settle any dispute or claim arising out of or in connection with this Agreement or its subject matter or formation (including non-contractual disputes or claims).

SCHEDULE 3

Pricing

Institutions are to receive unlimited online access, over a three-year period, to the Cambridge University Press Journals Annual Full Package. For 2017, there are 385 journal titles in the Full Package, valued at £113,795 (the online-only subscription value).

Members will receive access to our 2017 Full Collection and future annual collections through 2019 and benefit from unlimited OA publishing of accepted submissions in both our hybrid and wholly open access journals. The consortium price for this option is £381,439 for 2017.

- ❖ Participating institutions who have already renewed their 2017 subscriptions will be refunded as the value of these subscriptions have been taken into account in the 2017 pricing in this licence.

Subsequent year pricing, years 2018 & 2019:

- 2018 Consortium Price £411,954 – In the second year of the license, UKB members will be able to access our 2018 Full Collection and will continue to be able to publish in our hybrid and wholly open access titles without limitation within the 2018 Full Collection.
- 2019 Consortium Price £444,910 – In 2019, UKB members will have access to the 2019 collection and will continue to be able to publish in our hybrid and wholly open access titles without limitation within the 2019 Full Collection.

The increases for 2018 & 2019 represent 8% per annum. This increase is calculated as follows:

3% annual consortium increase + 5% new content for updated collections (2018 & 2019)

- ❖ We reserve the right to renegotiate the terms and pricing of this offer should our journal portfolio change due to unforeseen major acquisitions or if our Open Access Publishing increases exponentially.

New Institutions

Non-licenced universities may join the contract at any time during the course of the licence period. Additional fees per institution will be added to the total consortium fees.

Pricing for University Colleges and Research Institutions:

Access to the 2017 Full Collection or later collections are offered to university colleges and research institutes for a nominal flat fee of £2,500 per institute. The institution may cancel any individual subscriptions before the licence commences.

Unlimited Open Access publishing is not extended to these institutions.

Open Access Publishing:

The unlimited Open Access Publishing offered is only valid if at least 8 institutions license the 2017 Full Collection. Dutch (coordinating) authors affiliated with a licensed UKB member will be able to publish within both our available 261 hybrid journals and 20 wholly open access journals without

limitation. Due to society publishing policies the number of available hybrid and wholly Open Access journals can fluctuate from year to year. The policy of Cambridge-owned journals is to make all titles available for Open Access publishing.

General (applicable to all Subscription Products licensed through this Agreement):

During the term of this Agreement the Institutions shall be granted a discount of 50% off the GBP institutional print subscription price for any new or renewed print subscriptions to the Licensor's journals which have electronic equivalents.

DELETIONS OF JOURNALS

If Cambridge University Press ceases to publish a journal then this journal will no longer be available in the packages on offer. The availability of titles in Cambridge Journals Online Collections will be reviewed annually. Cambridge will notify SURFmarket of any titles leaving the list of available titles by 1 October in order to make applicable adjustments to the fees the following calendar year.

Should the value of the collection decrease by more than 10% year on year, then adjustments will be made to the Total Fees. By contrast, should the value of the collection increase by more than 10% year on year, we reserve the right to adjust the Total Fees. Cambridge University Press will communicate any such adjustments in advance.

SCHEDULE 6

Open Access

Terms and Conditions for Open Access Publishing for Authors

1. Eligible authors

Eligible Authors are defined as teaching and research staff employed by or otherwise accredited to one of the Institutions as well as students enrolled or accredited to one of the licenced Institutions.

In case of articles published by multiple authors, the corresponding author will be the Eligible author. Corresponding author shall be the author who signs the publishing agreement.

Authors are only eligible once they have signed the then current open access publishing agreement with Publisher. Currently this agreement refers to any of the below Creative Commons licences:

- Creative Commons Attribution License (CC-BY)
- Creative Commons Non-Commercial License (CC-BY-NC)
- Creative Commons Non-Commercial No-Derivatives License(CC-BY-NC-ND)
- Creative Commons Non-Commercial Share-alike (CC-BY-NC-SA)

2. Eligible Article Types

This agreement provides for unlimited publishing of research and review articles by Corresponding Authors within our hybrid and fully-OA journals.

3. The parties' obligations

a) The parties have the following obligations regarding the Open Access Publishing:

- Publisher shall not levy article processing charges directly on Authors who have identified themselves and whose eligibility has been verified;
- Publisher shall list and include the Institutions in the publishing process in order to assist Authors in identifying themselves at the time of submission;
- Authors will be deemed Affiliated Authors if the email address they provide to the Publisher is part of the list of domain names of the Institutions provided in Appendix
- Informational text in RightsLink (or whichever system the Publisher may utilize in future) will be displayed for authors linking to the Publisher's website for further details on the possibilities to publish in Open Access for free.
- Information regarding the agreed licence in regard to publishing in Open Access will be posted on the Cambridge Core website.
- Authors are given a choice in publishing routes at the time of submission. However, the Publisher's website will clearly be referenced to enable Authors to view the Open Access policies and allowances within this agreement.

- Institution shall ensure that Authors shall identify themselves as being both eligible and corresponding in the course of the Publisher work-flow. In case authors have not identified themselves as being eligible and corresponding, once an article has been published in a subscription Journal, the author is not eligible anymore to publish the article as Open Access;
 - The parties might change this identifying process and amend this Agreement accordingly, when the changes and amendments are agreed by both parties.
 - If the Agreement between Parties becomes available after the starting date, Parties will agree on publishing articles in Open Access for three years starting from 1 June 2017. Articles submitted by eligible corresponding authors qualify for Open Access publishing under this agreement upon acceptance date from or after 1 June 2017 through 31 May 2020.
 - Publisher will where appropriate provide an automated article upload service to PubMed Central.
- b) Publisher will deliver a monthly report per institute of the articles that have been published in Open Access in hybrid journals or fully OA journals in each month. The report gives an overview of the corresponding author(s), the affiliation of the corresponding author(s), the article title and journal volume, per institute. The report will be delivered within 4 weeks after the end of each month.
- c) Publisher will deliver a full report of all articles (open access and otherwise) published by the Institutions over the period 1 January until 30 June and 1 July until 31 December. The report gives an overview of the Institutions, the corresponding author(s), the affiliation of the corresponding author(s), the article titles, journal volumes and open access Y/N. The report is delivered within 4 weeks after the end of the 6 month periods. The report will be sent to SURFmarket, or an appointed contact person of the Institutions.
- d) Publisher is working to support the NISO Access and License Indicators Metadata, which we see as a useful standard. Currently, we record in JATS XML that the article is Open Access and which Creative Commons license is applied to the article.
