6. The code will be applied and the total order amount will be updated to reflect the waived article. Click “Add to Cart” once code has been applied and then “Checkout”. If an invalid code is entered there is a red cross next to the code (it becomes a green tick if the code is valid) and the order summary will show a price and no discount. If this happens authors should check they have entered the code correctly (type the code rather than copy paste) and if there is still an issue contact their librarian to check the status of the code.
